

## **INTRODUCTION**

**Andy Hickman believes in magic...not the kind found in the illusions he performs...but rather, the kind found inside each member of his audience. He honed his skills as an illusionist while working with David Copperfield's "Project Magic."**

**Andy is a Certified Speaking Professional. Fewer than 5% of the speakers worldwide have earned this prestigious designation. Andy is a favorite speaker for most of the Fortune 100 companies in America.**

**Although he has addressed thousands of audience members throughout the world, one of his greatest honors was being hired to deliver the Keynote Address to the survivors of the Oklahoma City bombing. He is also the author of two books and the inventor of his famous "Magic Tie." Autographed copies of his books and The Magic Tie will be available for purchase after his presentation.**

**Andy's presentation today is titled, "The Magic of the Future is YOU!" He will inspire us to break out of the mold and become true Heroes for our customers!**

**Let's welcome, Andy Hickman!**
